

A close-up photograph of a cactus, likely a cholla, showing its characteristic sharp, reddish-brown spines. The spines are dense and radiate from the green, segmented stems. The background is softly blurred, showing more of the cactus structure.

PETIT GUIDE DE LA 1ÈRE  
SCEANCE CHEZ LE  
DOULOUREUX  
CHRONIQUE

DR DUBOS BRUNO RENNES

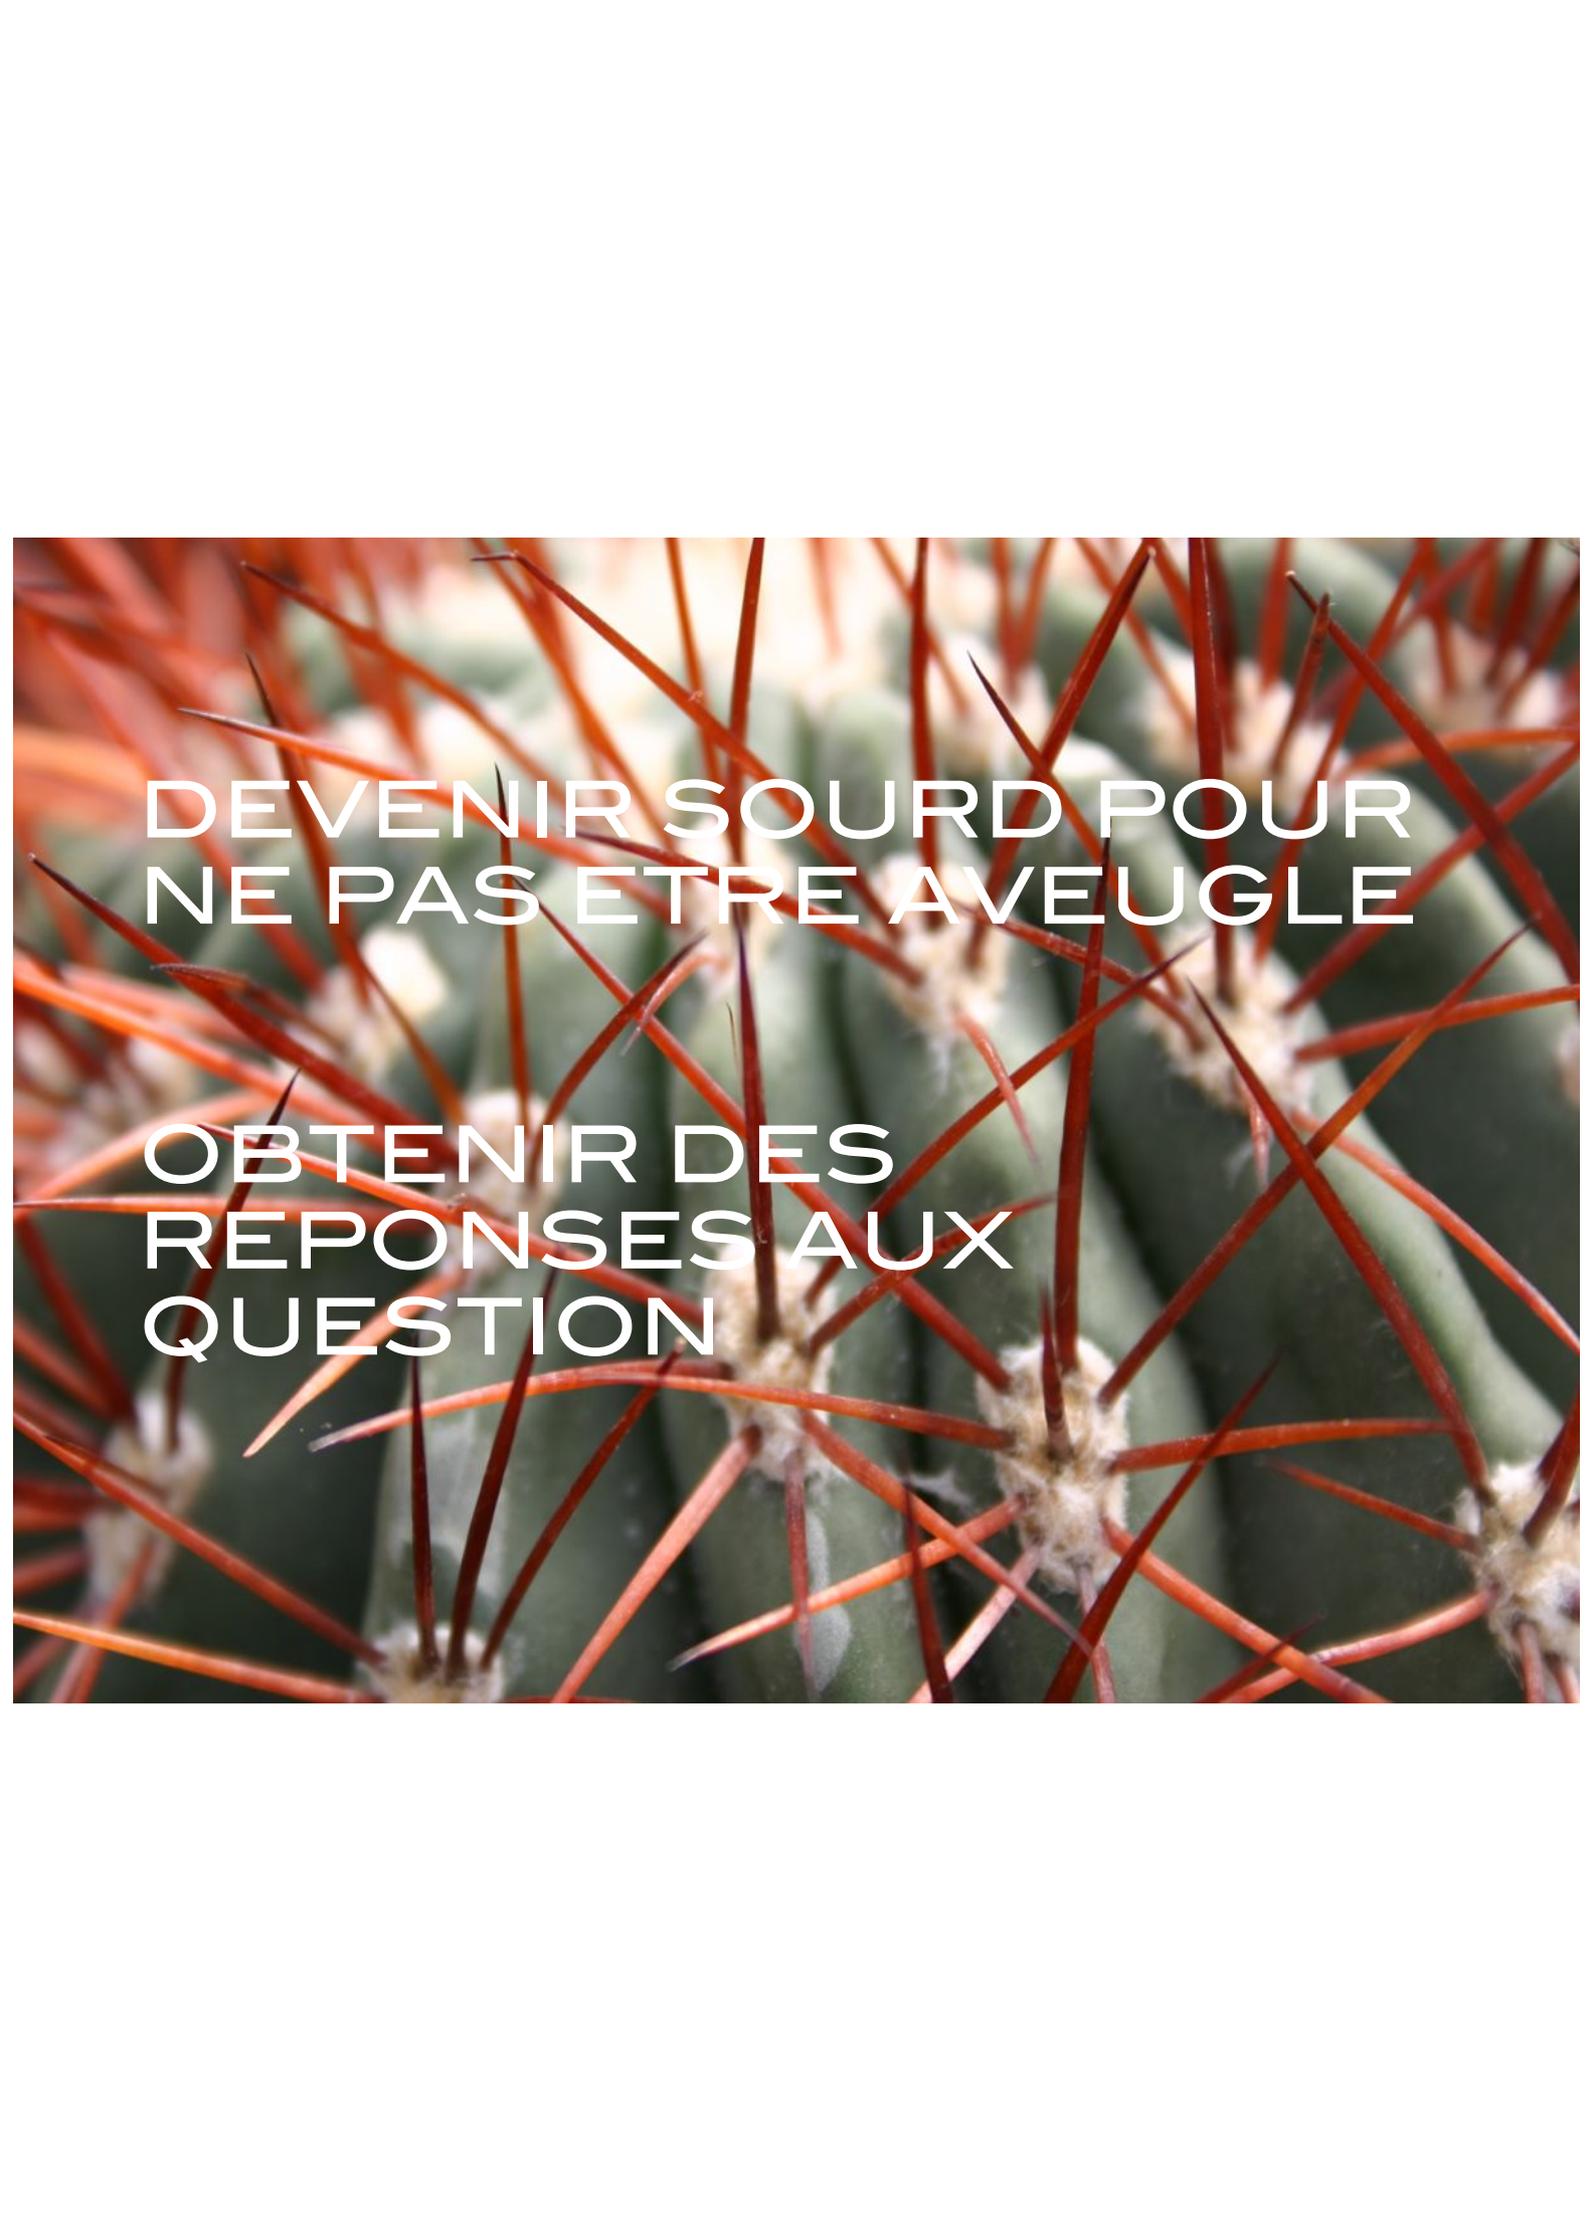

A close-up photograph of a cactus with numerous sharp, reddish-brown spines. The spines are arranged in a radial pattern, creating a complex, overlapping web of lines. The background is a soft, out-of-focus green, suggesting the cactus's body. The overall lighting is bright, highlighting the texture and color of the spines.
